

INNOVATIVE TECHNOLOGY IN RECYCLING

CLEAN STATION

- System of ejectors cleaning;
- Program possibility of temperatures and temporization by the operator;
- When is used with cleaning solution (cartridges without sponge that ink be pigmented) the temperatures must be placed between 50/55°C;
- The use with immineralized water is recomendad for other type of cartridges and the recomendad temperature is coincidente.

Technical Data 175L

Electrical Connection...	100V/240V 50/60HZ
Power Consumption.....	400 Watt to 24VDC
Cartridges per Cycle.....	10 - 20
Cartridges per Hour.....	20 - 40
Measures.....	30 x 36 x 19 cm
Weight.....	3,55 Kg
Weight for Expedition.....	8 Kg

Technical Data 265L

Electrical Connection...	100V/240V 50/60HZ
Power Consumption.....	600 Watt to 24VDC
Cartridges per Cycle.....	20 - 40
Cartridges per Hour.....	40 - 80
Measures.....	39 x 63 x 19 cm
Weight.....	5 Kg
Weight for Expedition.....	9 Kg

Technical Data 530L

Electrical Connection...	100V/240V 50/60HZ
Power Consumption.....	800 Watt to 24VDC
Cartridges per Cycle.....	40 - 80
Cartridges per Hour.....	80 - 160
Measures.....	66 x 36 x 19 cm
Weight.....	7 Kg
Weight for Expedition.....	11 Kg
